WorkForce DS-730N(B11B259401)

Epson WorkForce DS-730N - Document scanner - Contact Image Sensor (CIS) - Duplex - A4/ Legal - 600 dpi x 600 dpi - up to 40 ppm (mono) / up to 40 ppm (colour) - ADF (100 sheets) - up to 4500 scans per day - USB 2.0, Gigabit LAN

Connect your business with this highly efficient standalone network scanner. It's the intelligent choice for business document management, offering the option to scan to separate locations - departments or individual accounts - at the touch of a button, allowing you to capture, convert and distribute scanned information within your organization.

Key Selling Points

Standalone network scanning: release the potential of a connected workplace
File sharing: one-touch scan to different destinations
Reliable paper handling: take control with ultra-sonic sensors and paper protection
Speed with control: use slow mode or scan documents with speeds of up to 40 ppm (80 ipm)
Built-in display: easy-to-use 1.44-inch color LCD

Product Features

Sharing made easy
With limited office space, reducing the number of dedicated devices is crucial. With an easy-to-use control panel with built-in 1.44" color LCD display, you can choose the correct job and send documents to the correct destination without delay, making digital files available across departments and other agencies. Scan to email, folder, FTP, SFTP, cloud services or Microsoft applications at the touch of a button.

High performance
Thanks to a high-capacity 100-sheet ADF, user intervention is reduced, allowing you to capture high volumes of documents in one go. With double-sided scan speeds of up to 40 ppm/80 ipm, bulk jobs can be captured quickly and easily as a single file.

Intelligent features
Take control with a range of intelligent features, including ultra-sonic sensors and a paper protection function. Slow mode allows difficult media to be captured by reducing roller speed, without increasing file sizes. Double feed detection skip means difficult documents like envelopes and post-it notes can be processed rapidly.

Quick send buttons
Thanks to WebConfig, you can create job presets and assign them to one of three quick send buttons, without the need for a PC or server. Multiple email addresses can be assigned to a single job. Scan once and send to several different contacts. Up to 300 separate contacts can be saved.
