

Parallels Desktop(ESDPD20EU)

Parallels Desktop 20 - ESD - Mac

Maximize your Mac's potential by running Windows and Windows applications on a virtual machine. Access over 200,000 apps to work, study and play effortlessly.

Key Selling Points

- Choose your view
- Drag and drop files and images between Windows and Mac apps
- Open files on Finder with Windows
- Play Windows-exclusive games on your Mac

Product Features

Choose your view

Make Windows invisible while still using its applications in Coherence mode or if you're new to Mac you can set Windows in full screen. (Mac and Windows apps open at the same time).

Drag and drop files and images between Windows and Mac apps

Transfer files between operating systems without the need for external devices or complicated steps, improving productivity and making it more convenient to work with both operating systems.

Open files on Finder with Windows

Directly access and open files stored on your Mac within the Windows environment, providing a seamless integration between the two platforms. Leverage the capabilities of Windows applications while conveniently accessing and manipulating files from your Mac's Finder.

Play Windows-exclusive games on your Mac

Play many classic Windows-exclusive games on your Mac. Experience hundreds of Windows-only games on a Mac with the same optimal performance as you would on a PC.
